

Units 8 & 9, Westhill Industrial Estate

Aberdeenshire

Contract Administrator &
Principal Designer

- FG Burnett's Building Consultancy team was engaged to oversee the comprehensive refurbishment of two industrial units, serving in dual capacities as Contract Administrator and Principal Designer as part of the landlord's capital improvement program
- Following the client's instruction after preparing contract documents and conducting a tendering process, FG Burnett appointed the contractor with the most competitive bid to ensure cost efficiency and oversaw the execution of work on site to guarantee adherence to quality and timelines
- Demonstrating the effectiveness of our integrated approach, the units were successfully leased through our Agency department shortly after the refurbishment was completed, underscoring the enhanced value and appeal of the property post upgrade
